

## *How will your Organization Benefit from this Program?*

How can your Organization exploit QRS capabilities and intellectual property to develop and mature your Enterprise Architecture Practice. A mature EA practice will enable the achievement of the following business goals:

- Optimize Total Cost of Technology Automation and Service Level to the Enterprise
- Reduce Business Risks of both *new* and *old* Technologies
- Enable Organic Growth by reducing opportunity cost of product launch latency (*Time to Market*)
- Acquired Growth by reducing lead time, cost and risk of merging and partnering with an another Enterprise.

## *Program Content*

As a partner, you will have unlimited access to QRS resources which includes:

- QRS Online Education and Training programs which includes TOGAF 8, TOGAF 9, PMI and ITIL
- TOGAF Education Knowledge Base
- Templates of Enterprise Architecture Deliverables and many Completed Sample Deliverables
- EALC Toolkit, Technology and Business Reference Architectures
- QRS EA Repository – EALC Software: ITO
- Preferred Professional Services Rates for Workshops, Mentoring and Team Augmentation

## *How does QRS Benefit?*

QRS practitioners conduct research, education, training and consulting in Enterprise Architecture Life Cycle space. We continuously strive to improve our understanding of the challenges faced by the IT Organizations. We apply our academic rigour and hands on experience to provide Thought Leadership and Leading Practices to define, develop and exploit Boundaryless Information Flow capabilities of the Enterprise. We work with you.

## *To Join*

To join this program, you must be an IT Organization and must enter into a non compete with QRS in Enterprise Architecture Life Cycle Space.
